## Knock Down Doors

---

### Features:

- 20 gauge A40 galvanized doors— polystyrene insulated core, smooth or textured skin, finish painted
- 16 gauge A40 galvanized frames—2 1/4” type profile, finish painted
- Baked-on finish coat paint—white color
- Grade 2 Stainless steel lever lock
- Wide variety of hardware items—from value to high end architectural
- 3068 & 3070 are standard sizes—but any size can be manufactured in very short lead times
- Beveled door edge for tighter fit
- (3) 4 1/2” x 4 1/2” BB NRP Hinges
- Full perimeter urethane weatherseal
- Reversible
- Other paint colors available

### Benefits:

- Pocket door type design makes for simple installation and labor savings
- Commercial door, frame and hardware components provide for long term durability
- Corrugated and shrink wrapped packaging—wood skid base
- Lite kits are installed and include the glass
- Greater in-place value than KD doors

## Paint

---

Doors have a baked-on finish coat of paint. The mills of paint average 1.2 mills dry. Standard colors are white, bronze or gray; however, special colors are available

## Packaging

---

Doors are made to individual order specifications. After doors are completely assembled they are packaged in wood “surround”. Doors are skidded up to four (4) high on 3070’s and 4070’s and two (2) high on 6070’s. Skids are 4-way and have 4 length long runners.
